

ENVIRONMENTAL POLICY STATEMENT

Commitment

RTI is committed to protecting the environment by conducting our operations in an ecologically sustainable manner. Together with our existing initiatives to preserve the environment and a strong staff commitment, RTI will seek to comply with all requirements to ensure the objectives of this policy continue to be met now and into the future.

Objectives

Our environmental objectives include:

- a. developing processes and procedures to identify, prevent and mitigate environmental pollution;
- b. integrating environmental management into planning, systems, processes, decision making, and the Quality Management System;
- c. base our Environmental Management System on AS/NZS ISO 14001: 2016 Environmental Management System – Requirements;
- d. efficiently managing our operations in a way that minimises our impact on the land, air and waterways and to achieve the sustainable use and reuse of resources;
- e. ensuring employees are trained to conduct their activities in an environmentally responsible manner;
- f. providing appropriate resources to establish and maintain the environmental management system, and achieve the above environmental objectives/performance targets;
- g. periodically review systems and procedures, environmental performance, objectives and targets to ensure continual improvement and compliance with legislative and other external requirements;
- h. conducting regular environmental audits and assessments of compliance with company environmental objectives, and regulations;
- i. continually improving environmental performance; and
- j. communicating this policy to employees, sub-contractors and the general public by displaying it in the Head Office, site offices and including it in our induction processes.
